² Acting as Depositary.

further information

 The Fund is diversified broadly across regions, industries, issuers, and asset classes, as well as through a varied set of sources of value and employs independent research and prudent diversification with respect to industries and issuers in order to seek to achieve its investment objective. The Fund invests at least two-thirds of its assets in a diversified portfolio of Fixed Income Instruments of varying maturities. The Fund will generally allocate its assets among several investment sectors, which may include (i) high yield and investment grade corporate bonds of issuers located in the EU and in non-EU countries, including emerging market countries; (ii) global bonds and Fixed Income Securities issued by EU and non-EU governments, their agencies and instrumentalities; (iii) mortgage-related and other asset-backed securities which may or may not be leveraged; and (iv) foreign currency positions, including currencies of emerging market countries. The Fund may invest in both investment grade securities and high yield securities subject to a maximum of 50% of its total assets in Fixed Income Instruments that are economically tied to emerging market countries. The Fund may also invest 100% of its net assets in Fixed Income Securities issued by, or guaranteed as to principal and interest by, the U.S. government and repurchase agreements secured by such obligations provided that the Fund holds at least six different issues, with securities from any one issue not exceeding 30% of net assets. No more than 25% of the Fund's net assets may be invested in securities that are convertible into equity securities. No more than 10% of the Fund's total assets may be invested in equity securities. The Fund may use derivative instruments such as options, futures, options on futures and swap agreements or currency forward contracts. Derivative instruments may be used for (i) hedging purposes and/or (ii) investment purposes and/or (iii) efficient portfolio management. <l< th=""><th>strategy.</th></l<>	strategy.

	APPENDIX: GLOSSARY OF TERMS
ABS	: means asset-backed securities.
Business Day CIBM	 means any day on which banks are open for business in Dublin, Ireland or such other days as may be specified by the Company, with the approval of the Depositary. means China Inter-Bank Bond Market.
Dealing Day	: means any day on which banks are open for business in the United States or such other days as may be specified by the Directors with the approval of the Depositary provided there shall be one Dealing Day per fortnight and all Shareholders will be notified in advance. Notwithstanding the foregoing, it will not be a Dealing Day for the Fund where either as a result of public holidays or market/stock exchange closures in any jurisdiction, it makes it difficult (i) to administer the Fund or (ii) value a portion of the Fund's assets. For further details on proposed Fund closures throughout the year, Shareholders and prospective investors should contact the approved distributor or Singapore Representative or consult the Funds Holiday Calendar (a copy of which is also available from the approved distributor or Singapore Representative).
Dealing Deadline	: means generally before 5:00 p.m. (Singapore time) on each Dealing Day.
Fixed Income Instruments	: includes Fixed Income Securities and derivative instruments including but not limited to futures, options and swap agreements (which may be listed or over-the-counter) that are issued in connection with, synthesise, or are linked or referenced to such Fixed Income Securities.
Fixed Income	0
Securities	 (a) securities issued or guaranteed by Member States and non-Member States, their sub-divisions, agencies or instrumentalities; (b) corporate debt securities and corporate commercial paper; (c) mortgage-backed and other asset-backed securities which are transferable securities that are collateralised by receivables or other assets; (d) inflation-indexed bonds issued both by governments and corporations; (e) event-linked bonds issued by both governments and corporations; (f) securities of international agencies or supranational entities; (g) debt securities whose interest is, in the opinion of bond counsel for the issuer at the time of issuance, exempt from U.S. federal income tax (municipal bonds); (h) freely transferable and unleveraged structured notes, including securitised loan participations; (i) freely transferable and unleveraged hybrid securities which are derivatives that combine a traditional stock or bond with an option or forward contract; (j) loan participations and loan assignments which constitute money market instruments. Fixed Income Securities may have fixed, variable, or floating rates of interest, and may vary inversely with respect to a reference rate.
Index Irish Prospectus	: means the Bloomberg US Aggregate Index. : means the Irish prospectus of the Company.
MBS	means mortgage-backed securities.
NAV Not Incomo	: means the net asset value of the Fund.
Net Income	: means the net investment income of the Fund (which consists of interest and dividends, less expenses).
RMB	: Chinese Renminbi, the lawful currency of the People's Republic of China.
