

Capital Group Global Corporate Bond Fund (LUX)

Fund information

Fund launch date: 13 February 2018

Share class launch date: 23 May 2023

Objective:

The fund seeks to provide, over the long term, a high level of total return consistent with capital preservation and prudent risk management by investing in corporate investment grade bonds worldwide. The fund also aims to manage a carbon footprint for investments in corporate issuers that is generally at least 30% lower than the index, and evaluates and applies ESG and norms-based screening to implement a negative screening policy relating to investments in corporate issuers.

Fund size: S\$2,868 million

Base currency: USD

Fund type: UCITS

ISIN: LU2621531693

Supplementary information

Fund results

Past results are not a guarantee of future results. Results shown are for the specified share class. Results may differ for other share classes, such as currency-hedged or dividend-paying share classes.

Some funds may invest in financial derivative instruments for investment purposes, hedging and/or efficient portfolio management.

Fund results are shown at the share class level after fees and expenses and are calculated as the increase or decrease in net asset value of the share class over the relevant period. Results based on month-end NAV and on the assumption that any distributions are reinvested. See glossary for details.

1. Net of the maximum subscription charge of 5.25%

About Capital Group

Assessing portfolio carbon emissions

- The Weighted Average Carbon Intensity is the metric we use to report the fund's carbon emissions. It helps show the carbon footprint of the portfolio compared to the index, as well as understand the attribution of emission results.
- At this stage, climate impact assessment includes corporates only. Sovereign bonds and cash are not in scope of the assessment.

Metric	Weighted average carbon intensity (tons CO ₂ e/US\$m revenue) ⁴
Description	Measures a portfolio's exposure to carbon-intensive companies
Calculation methodology	Sum product of the portfolio weights and the companies' carbon intensity

Capital Group Global Corporate Bond Fund (LUX) has adopted Sustainable Finance Disclosure Regulation (SFDR) article 8 requirements. The SFDR Classification is related to the European Union's regulation and is not equivalent to approval or recognition as an ESG fund by regulators in Asia Pacific. Sources: Capital Group, MSCI

Norms-based analysis determines whether an issuer complies with the universal principles in the United Nations Global Compact (UNGC).

¹ Companies that have any ties to cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, nuclear weapons and/or non-detectable fragments.

² For securities for which this can be measured, currently defined as corporate bonds. Index refers to Bloomberg Global Aggregate Corporate Total Return Hedged to USD.

³ Carbon footprint calculation is based on Scope 1 and 2 emissions. Scope 1: direct emissions from the company's facilities. Scope 2: indirect emissions linked to the company's energy consumption.

⁴ Carbon dioxide equivalent (CO₂e) is the number of metric tons of CO₂ emissions with the same global warming potential as one metric ton of another greenhouse gas.

Aligned companies – their core business is currently majority-aligned to the UN SDGs.

Asset class – A group of financial instruments which have similar financial characteristics and behave similarly in the market place. Examples include fixed income, equity and multi-asset.

Base currency – The base currency of a mutual fund refers to the currency in which the net asset value (NAV) of the fund is calculated.

Bloomberg code – Issued by Bloomberg, this is a code that uniquely identifies a specific securities issue.

Composite – A single group of discretionary portfolios that collectively represent a particular investment strategy or objective.

Derivatives – A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset (like a security) or set of assets (like an index). Common underlying instruments include bonds, commodities, currencies, interest rates, market indexes, and stocks.

Dividend – A sum of money paid regularly by a company to its shareholders out of its profits (or reserves).

Effective duration – Effective duration provides a measure of interest-rate sensitivity. The longer duration is, the more sensitive to shifts in interest rates.

Emerging market – An emerging market economy is the economy of a developing nation that is becoming more engaged with global markets as it grows.

EMD – Emerging market debt (EMD) is a term used to describe bonds issued by countries with developing economies as well as by corporations within those nations.

Equity – Shares of ownership in a company.

Fixed income securities – A debt instrument issued by a government, corporate or other entity.

Fund – A financial vehicle made up of a pool of money collected from many investors to invest in securities such as stocks and bonds.

Fund income yield – Income Yield is total income earned by the fund, net of withholding taxes and before management fees and expenses, divided by average net assets over the past 12 months.

Hedging – A method of reducing unnecessary or unintended risk, in this case particularly as it pertains to currency.

High yield – A high yield bond is one with a lower credit rating than an investment grade bond. High yield bonds typically offer a higher rate of interest because of a greater risk of default.

Index – An index represents a particular market or segment of it, and is a tool used to describe the market and compare returns on specific investments.

International Securities Identification Number (ISIN) Code – A code that uniquely identifies a specific securities issue.

Liquidity – Liquidity describes the degree to which an asset or security can be quickly converted into cash without a significant concession in price.

Net asset value (NAV) – The month-end NAV is an additional, information-only NAV of the fund. It is calculated on the last week-day of the month, using the same methodology as used by indices, to enable investors to carry out comparisons with relevant benchmarks. No dealing activity can be based on such net asset value per share.

Securitised – Financial securities that are created by securitising individual loans (debt).

SEDOL – Stock Exchange Daily Official List

Share class – Each Capital Group fund has different share classes, such as B and Z. Each share class will have different levels of minimum investment, fees and expenses, and returns will differ.

"Acc" are accumulating share classes.

"Inc" are dividend-distributing share classes.

"d" are share classes where the dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes and expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, net investment income.

"gd" are share classes where the dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such Classes. A given Class may not actually pay a dividend in any given accounting period if it has no, or insignificant, gross investment income. The payment of dividends out of gross investment income implies that all or part of the fees and expenses are charged to capital (i.e. accumulated capital gains or initial investment).

"fd" are share classes where the dividend will generally be fixed and may exceed the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes. The payment of a fixed dividend implies that any payment in excess of the net investment income may include capital gains, as well as partially be paid out of capital.

"fyd" are share classes with a variable dividend based on a fixed percentage of the Net Asset Value per Share. It may exceed the gross investment income (i.e. net of withholding taxes but gross of expenses) of such classes. The payment of dividend in this manner implies that any payment in excess of the net investment income may include capital gains and/or payments out of capital. The fixed percentage applied is intended to achieve a predictable annual dividend yield, which is subject to the Management Company's discretion.

"m" are share classes where dividends will be distributed monthly.

"h" are hedged equivalent share classes. It seeks to limit exposure to currencies other than the currency referred to in the designation of each relevant Class.

Standard deviation – Standard deviation is calculated after fees and is a measure of how much the returns from an investment can vary from its average return.

Total expense ratio (TER) – A measure of the total costs associated with running the fund, including marketing and distribution costs.

Total return – The overall actual rate of return of an investment over a given evaluation period.

Transitioning companies – those who are transitioning their business to higher positive alignment to the UN SDGs over the long term, with material near- to medium-term change expected.

Turnover – Turnover is calculated over the last 12 months as the lesser of monthly purchases and sales divided by the average net assets.

UCITS – Undertakings for Collective Investment in Transferable Securities (UCITS) is a regulatory framework that allows for the sale of cross-Europe mutual funds.

UN Global Compact – Conceived by the United Nations, a call to companies to align standards and operations with universal principles on human rights, labour, environment and anti-corruption.

UN Sustainable Development Goals (SDGs) – A collection of 17 interlinked objectives adopted by the United Nations in 2015 designed as a universal call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity

Yield – The income returned on an investment, such as the interest or dividends received from holding an asset. The yield is usually expressed as an annual percentage rate based on the cost of investment, current market.

Yield to worst – The lowest possible yield that can be received on a bond that fully operates within the terms of its contract without defaulting.

Capital Group Global Corporate Bond Fund (LUX)

Share class information (further share classes available at capitalgroup.com/asia)

Class	NAV	Management fee p.a.	Dividend yield	Min. investment	Bloomberg	ISIN	SEDOL
Bfdmh-SGD (Inc)	\$14.44	1.000%	1.10%	n/a	none	CAPGBBF LX	LU2621531693 BNDTHQ9

Dividend yield is the income return on the share class and is shown for distributing share classes only. It is calculated over the last 12 months as income earned by the fund after withholding taxes, fees and expenses. Distributions are not guaranteed and can fluctuate. Distributions may be paid out of distributable income, capital or both. Past dividend yields and dividend payment do not represent future dividend yields and dividend payments. Any dividend distributed may result in an immediate reduction of the net asset value per share. Actual dividend payout will be subject to the manager's discretion. Additional information on historical dividend payments and composition of dividends is available online at capitalgroup.com/asia. The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. In addition to the Total Expense Ratio (TER), entry charges may apply according to provisions described in the Prospectus. Data is likely to change over time and does not constitute a commitment from the management company. Total Expense Ratio (TER) is calculated over the last 12 months with a one month lag. TER data is therefore as at 29 February 2024. Hedged share classes may be available.

Important information:

This material is issued by Capital International Management Company Sàrl ("CIMC"), unless otherwise stated, which is authorised and regulated by the Luxembourg "CSSF" - Commission de Surveillance du Secteur Financier. CIMC manages the Luxembourg based UCITS fund(s), organized as a SICAV, which is a (are) sub-fund(s) of Capital International Fund.

For Hong Kong: This material is issued by Capital International, Inc. ("CIInc") which is regulated by the Securities & Futures Commission of Hong Kong ("SFC"). CIInc is the appointed Hong Kong Representative of the Fund. The material has not been reviewed by the SFC.

For Singapore: This material is issued by Capital Group Investment Management Pte. Ltd. ("CGIMPL") which is regulated by the Monetary Authority of Singapore ("MAS"). CGIMPL is the appointed Singapore Representative of the Fund, which is constituted outside Singapore and recognised by the MAS under section 287 of the Securities and Futures Act. This advertisement or publication has not been reviewed by the MAS.

Risk factors you should consider before investing:

- **This material is not intended to provide investment advice or be considered a personal recommendation.**
- **The value of investments and income from them can go down as well as up and you may lose some or all of your initial investment.**
- **Past results are not a guide to future results.**
- **If the currency in which you invest strengthens against the currency in which the underlying investments of the fund are made, the value of your investment will decrease. Currency hedging seeks to limit this, but there is no guarantee that hedging will be totally successful.**
- **The Prospectus – together with any locally-required offering documentation – set out risks, which, depending on the fund, may include risks associated with investing in fixed income, derivatives, emerging markets, and/or high-yield securities; emerging markets are volatile and may suffer from liquidity problems.**
- **Some funds may invest in financial derivative instruments for investment purposes, hedging and/or efficient portfolio management.**

Other important information

The information in relation to the index is provided for context and illustration only. The fund is an actively managed UCITS. It is not managed in reference to a benchmark.

The fund(s) is (are) offered only by Prospectus, together with any locally-required offering documentation. In Singapore, this is the Product Highlights Sheet and in Hong Kong, the Product Key Facts Statement. These documents are available free of charge and in English at capitalgroup.com, and should be read carefully before investing. However, these documents and other information relating to the fund will not be distributed to persons in any country where such distribution would be contrary to law or regulation. If you act as representative of a client it is your responsibility to ensure that the offering or sale of fund shares complies with relevant local laws and regulations. The tax treatment depends on individual circumstances and may be subject to change in future. Investors should seek their own tax advice.
