Quick facts

Management Company:	BNP PARIBAS ASSET MANAGEMENT Luxembourg		
Fund Manager:	Internal and/or external delegation to one or more portfolio managers as described in the "General Information" section of the Prospectus and the "Management and Sub-Delegation" section of the Hong Kong Covering Document and Information for Hong Kong Investors		
Custodian:	BNP Paribas, Luxembourg Branch		
Ongoing charges over a year#:	Classic		2.23%
	Privilege		1.23%
Base currency:	USD	Dealing frequency:	Daily
Financial year end of this sub-fund:	31 December	Dividend policy:	Capitalisation shares – No dividend distribution (income, if any, will be reinvested)
			Distribution shares - Dividend, if declared, will be paid Distributions may be paid out of capital which may result in an immediate reduction of the sub- fund's net asset value per share
		Min. investment:	None
		Min. holding:	"Privilege" categories – EUR 3 million or equivalent

The ongoing charges figure is calculated based on expenses for the year ended at 31 December 2023. This figure may vary from year to year. The ongoing charge is calculated by adding all direct fees, indirect fees and external fees of the sub-fund and then divided by the average net assets. Direct fees refer to charges and payment directly borne by the sub-fund such as operating costs, remuneration and payment to key operators and service providers. Indirect fees refer to the ongoing charges of the underlying funds which the sub-fund invests. External fees refer to any remuneration of the management company or other party that derives from fee-sharing arrangement.

What is this product?

This sub-fund is a fund constituted in the form of a mutual fund. It is incorporated under Luxembourg law and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objective and Investment Strategy

Objective

To increase the value of its assets over the medium term by investing primarily in emerging equities.

Strategy

At all times, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities (such as participation rights which refer to equity instruments like bonus right and/or subscription rights (which may result from a corporate action)) issued by companies that have their registered offices or conduct the majority of their business activities in emerging countries throughout the world (defined as non Organisation for Economic Co-operation and Development countries prior to 1 January 1994 together with Turkey and Greece; examples of emerging countries include China, India, Indonesia, Korea, Chile, Hungary, Mexico and Poland etc.).

The remaining portion, namely a maximum of 25% of its assets, may be invested in any other securities (including P-Notes), money market instruments or cash, provided that investments in debt securities of any kind do not exceed 15% of its assets, and up to 10% of its assets may be invested in collective investment schemes.

In the respect of the above investments limits, the sub-fund's overall exposure (via both direct and indirect investments) to mainland China securities will not exceed 20% of its assets by investments in "China A-Shares" via the Stock Connect and financial derivative instruments on this type of assets.

To further elaborate, the investment manager will select investments for the sub-fund based on liquidity criteria and fundamental criteria such as earnings, management quality, valuation and long-term growth prospects.

The Investment Manager applies BNP PARIBAS ASSET MANAGEMENT's Sustainable Investment Policy, which takes into account Environmental, Social and Governance criteria in the investment process of the sub-fund.

The sub-fund may invest in sovereign debt securities but it does not contemplate to invest more than 10% of its net asset value in securities issued by or guaranteed by any single country (including its government, a public or local authority of that country) with a credit rating below investment grade and/or unrated.

Use of Derivatives/Investment in Derivatives

The sub-fund's net derivative exposure may be up to 50% of the sub-fund's NAV.

What are the key risks?

Investment involves risks. Please refer to the offering document for details including the risk factors.

Emerging Market Risk

- The sub-fund invests in emerging markets. Investing in emerging markets is likely to be subject to a higher than average volatility, less liquidity and greater sensitivity than investing in more developed markets due to, among other factors, greater uncertainty, greater political, tax, economic, social, foreign exchange, liquidity and regulatory risks. The price fluctuations of the investments are often amplified in the short term and the value of investments of the sub-fund may go down.

Risk linked to Equity Market

- Investments in equity include significant fluctuations in prices, negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term and may have a negative impact on the performance of the overall portfolio at a given time. There is no guarantee that investors will see an appreciation in value. The value of investments of the sub-fund may go down and it is possible that investors will not recover their initial investment.

Risk related to Investments in Some Countries

- Investments in some countries (China, India, Indonesia, Japan, Saudi Arabia and Thailand) involve risks linked to the restrictions imposed on foreign investors and counterparties, higher market volatility and the risk of lack of liquidity.

Risks related to Stock Connect

- Stock Connect is novel in nature, and will be subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong from time to time. The regulations are untested and there is no certainty as to how they will be applied.
- Stock Connect is subject to quota limitations which may restrict the sub-fund's ability to invest in China A-Shares through Stock Connect on a timely basis, and the sub-fund may not be able to effectively pursue its investment strategies.
- Under the Northbound trading link of the Stock Connect, investors will be able to trade certain eligible stocks listed on the Shanghai Stock Exchange market and the Shenzhen Stock Exchange market. It is expected that the list of eligible securities will be subject to review. If a stock is recalled from the scope of eligible securities for trading via Stock Connect, the stock can only be sold and cannot be bought. This may affect the investment portfolio or strategies of investors.
- New regulations may be issued from time to time in connection with operations, legal enforcement and cross-border trades under the Stock Connect. The sub-fund may be adversely affected retrospectively as a result of such changes.
- Where a suspension in the trading through Stock Connect is effected, the sub-fund's ability to access the Mainland China market via the Stock Connect will be adversely affected.

Changes in PRC taxation risk

- Investment in the sub-fund may involve risks due to fiscal measures that the Chinese government could impose on foreign investors. The sub-fund does not make a provision in respect of PRC withholding tax on capital gains derived from direct equity investments in PRC enterprises. In case of any shortfall between the provisions and the actual tax liabilities, which will be debited from the sub-fund's assets, the sub-fund's asset value will be adversely affected. Existing and subsequent investors will be disadvantaged as they will bear for a disproportionately higher amount of tax liabilities as compared to the liability at the time of investment in the sub-fund.

Risk associated with investments in financial derivative instruments

- Risk associated with financial derivative instruments include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a financial derivative instrument can result in a loss significantly greater than the amount invested in the financial derivative instruments by the sub-fund. Exposure to financial derivative instruments may lead to a high risk of significant loss by the sub-fund.

Liquidity Risk

- Investments made by the sub-fund may become illiquid. It may not be possible to sell or buy these investments quickly enough to prevent or minimize a loss in the sub-fund.

Currency Exchange Risk

- The sub-fund may hold assets denominated in currencies that differ from the base currency, and may be affected by exchange rate fluctuations between the base currency and the other currencies and by changes in exchange rate controls. A depreciation of the denomination currency will lead to a depreciation in the exchange value of the security. When the manager is willing to hedge the currency exchange risk of a transaction, there is no guarantee that such operation will be completely effective and the sub-fund's value may be adversely affected.

BNP Paribas Funds Emerging Equity

Operational & Custody Risk

- Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the sub-fund on such markets could be more risky. In the event of a custodian default, the sub-fund may suffer a delay in recovering its assets, pending the resolution of the relevant default or bankruptcy proceedings.

Risk in connection with Dividend Payment

- The Management Company may at its discretion pay dividends out of the capital of the sub-fund. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the sub-fund's capital may result in an immediate reduction of the net asset value per share. The Management Company may amend the dividend policy subject to the SFC's prior approval and by giving not less than one month's notice to investors.

Investment Risk

- When investing in a fund, there is a risk that the final outcome may deviate from the initial expectations. The sub-fund's investment portfolio may fall in value and therefore may suffer losses. In addition, there is no guarantee of principal repayment.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- Classic Capitalisation, being a share class with the same reference currency as the sub-fund with the longest track record among all share classes and not restricted to certain types of clients, is selected as the representative share class.
- These figures show by how much the Classic Capitalisation share class increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- BNP Paribas Funds Emerging Equity launch date: 21 May 2013
- Classic Capitalisation share class launch date: 21 May 2013
- On 18 July 2011, BNP Paribas Funds Emerging Equity

BNP Paribas Funds Emerging Equity

absorbed a Luxembourg fund which is not authorized by the SFC.

Custodian fee	Included in Other costs
Performance fee	Not applicable
Administration fee	Included in Other costs
Other costs (Other costs cover the general asset custody expenses payable to the custodian and the daily administration expenses)	“Classic” categories – Up to 0.40% “Privilege” categories – Up to 0.25%

Other fees

You may have to pay other fees when dealing in the shares of the sub-fund.

Additional Information

- You generally buy and redeem shares at the sub-fund's next determined subscription price and redemption price through your authorised distributor after the transaction servicing agent receives your request via your authorised distributors in good order on or before 6 pm (Hong Kong time) on a Hong Kong business day. Investors should note that different distributors may have different dealing cut-off which may be earlier than the time specified in this document. Investors should check with the relevant authorised distributors accordingly.
- The net asset value of this sub-fund is calculated and the price of shares published daily on the website at <https://www.bnpparibas-am.com/en-hk>.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors from the website at <https://www.bnpparibas-am.com/en-hk>.
- The compositions of the dividends for the last 12 months are available from the Hong Kong representative on request and also on the website at <https://www.bnpparibas-am.com/en-hk>.
- Investors may obtain information on the intermediaries from our hotline (852) 2533 0088.
