

Invesco Responsible Japanese Equity Value Discovery Fund

31 March 2024

Important Information

- The Fund invests primarily in the securities of companies listed in Japan which meet the Fund's ESG criteria.
- Investors should note the ESG investment risk, concentration risk of investing in the securities of companies listed in Japan which meet the Fund's ESG criteria, currency exchange risk, equities risk, volatility risk, and general investment risk.
- Financial derivative instruments (FDI) may be used for efficient portfolio management purposes or to hedge or reduce the overall risk of investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.
- The value of the Fund can be volatile and could go down substantially.
- Investors should not base their investment decision on this material alone.

Objectives and investment strategy

The Fund aims to achieve long-term capital growth. The Fund seeks to achieve its objective by investing primarily (at least 70% of its net asset value) in the securities of companies listed in Japan which meet the Fund's environmental, social and governance (ESG) criteria.

A (JPY)-Acc Shares	13.65	31.32	29.20	58.12		18.69	3.95	9.98	-8.11	21.53
A (JPY)-SD Shares	13.64	31.29	29.18	57.99		18.58	4.01	9.94	-8.13	21.55

The launch date of A (EUR)-Acc Shares, A (GBP Hgd)-Acc Shares and A (USD)-Acc Shares was 26 May 2021. The calendar year performance of the launch year of the above share class(es) only represent performance from launch date of the relevant share class(es) to the last day of that year, which is not a full year return. # The performance shown in the chart above was based on an investment objective and policy that no longer applies, with certain changes being made to the Fund on 8 April 2021.

Distribution information

(Aims to pay dividend on monthly/quarterly/semi-annual/ annual basis. Dividend is not guaranteed.)

	Intended frequency	Record date	Amount/Share	Annualized dividend (%)
A (USD)-AD Shares	Annual	29/02/24	0.0464	0.33%
A (JPY)-SD Shares	Semi-Annual	29/02/24	2.4365	0.23%

Annualized dividend (%) = (Amount/Share X Frequency) ÷ Price on record date. Upon dividend distribution, the Fund's net asset value may fall on the ex-dividend date. For Frequency, Monthly = 12; Quarterly = 4; Semi-Annually = 2; Annually = 1. All distributions below USD 50/JPY 5,000 will be automatically applied in the purchase of further shares of the same class. Positive distribution yield does not imply a positive return.

This website has not been reviewed by the SFC and may contain information of Funds not authorised by the SFC.

All data is as of the date of this document and sourced from Invesco unless otherwise stated. Portfolio weightings and allocations are subject to change. The weightings for each breakdown are rounded to the nearest tenth or hundredth of a percent; therefore, the aggregate weights for each breakdown may not equal 100%.

*Source: Data as of the date of this document. Performance of the share class(es) and Morningstar rating are sourced from ©2024 Morningstar. Indexed performance: Performance of an investment of 100 in share class currency. Index performance is sourced from Invesco. Morningstar rating (if applicable) is given to the share class as shown in the Indexed performance chart. Performance of the share class(es) is calculated based on NAV to NAV, gross income re-invested in share class currency.

ESG Supplement

31 March 2024

ESG Characteristics

The Invesco Responsible Japanese Equity Value Discovery Fund (the fund) adopts a high-conviction active and ESG conscious approach to take advantage of overlooked transformations leading to sustainable corporate value creation underpinned by sound management and ESG initiatives among stocks that are attractively valued compared to their long-term potential. In other words, their price is attractive relative to their “normalised” earnings. In search of portfolio companies, the investment team seeks not cyclical but sustainable improvements in profit margins and capital efficiency where the portfolio manager and research analysts, who make an investment decision, undertake ESG risk and opportunity assessment. This approach distinguishes the strategy from other typical value funds. The consideration of sustainability characteristics is an integral part of every step of our investment process. The investment process of the fund is based on three building blocks: Bottom-up Stock Selection, ESG Approach and Proxy Voting and Engagement.

SFDR (see Glossary)

The fund complies with article 8 of SFDR (the EU's Sustainable Finance Disclosure Regulation) in that it promotes environmental or social characteristics, and in that the companies in which investments are made follow good governance practices. More information is available at www.invescomanagementcompany.lu

Invesco's Commitment to ESG

Invesco has an investment-led ESG approach. We provide a comprehensive range of ESG focused capabilities that enable clients to express their values through investing. We also integrate financially material ESG considerations across our investment platform, taking into account critical factors that help us deliver strong outcomes to clients.

ESG Characteristics ¹	Fund	Comparator ³
ESG Fund Rating (AAA-CCC)	AA	A

⁵ Exclusion Criteria

The exclusion criteria may vary depending on the activity from zero tolerance to exclusions based on % of revenue. For further details on the revenue threshold applied to specific exclusions please refer to the Sustainability-related disclosures on the website of the Management Company.
www.invescomanagementcompany.lu

Exclusion criteria definitions are as follows:

Thermal Coal Extraction: The company extracts thermal coal.

Thermal Coal Power Generation: The company generates electricity from thermal coal.

Unconventional Oil and Gas: The company is involved in oil and gas exploration in the Arctic and/or extracts oil sands and/or is involved in shale energy exploration/production.

Oil and Gas (Conventional): The company is involved in oil and gas exploration and production.

Chemicals of Concern: The company produces chemicals which are banned by the three international conventions: UNEP Stockholm Convention, OSPAR Convention, the Montreal Protocol on Substances that Deplete the Ozone Layer.

Nuclear Power: The company generates power from nuclear sources or derives revenue from developing products or services that support the nuclear power industry.

Controversial Weapons: Companies that have been identified as having ties to controversial weapons, including cluster munitions, landmines, biological weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons and/or not detectable fragments.

Tobacco: The company manufactures tobacco products and/or supplies tobacco-related products/services.

UN Global Compact Status: Companies that have been identified as "non-compliant" under the United Nations Global Compact by Sustainalytics.

Nuclear Weapons Outside the Non-Proliferation Treaty: The company is involved in the manufacture of nuclear weapons or their tailor made components AND these weapons are distributed to a country that is not a declared nuclear power under the Treaty on the Non-Proliferation of Nuclear Weapons.

Recreational Cannabis: The company is involved in or has ties to revenue from recreational cannabis.

Military Contracting: The company derives revenue from the manufacturing of weapons / weapon components or from providing tailor-made products or services to the army or the defense industry.

Civilian Firearms: The company derives revenue from the manufacturing of small arms designed and marketed for the civilian market. This includes the manufacturing and retail of civilian firearms.

Adult Entertainment: The company derives revenue from adult entertainment. This includes sex shops, producers of adult movies, cinemas that show adult movies, adult entertainment magazines, and the broadcasting of adult entertainment.

Gambling: The company derives revenue from gambling. This includes companies that own casinos, offer bookmaking or online gambling, or manufacture gambling products (e.g. slot machines), etc.

Alcohol: The company derives revenue from alcoholic beverages. This includes producers as well as distributors or owners of retail stores that sell alcoholic beverages.

Responsible Investment Approach definitions are as follows:

ESG Integration: The process of including ESG factors in the fundamental financial analysis of companies and investments.

Negative Screen / Positive Allocation: A process that either excludes a portion of the investment universe that score badly on ESG criteria, focuses upon companies engaged in positive activities for the community or natural world, such as recycling, education or public transport or a combination of both.

Sustainable Investments: An investment in an economic activity that meets the definition of a Sustainable Investment per Article 2 (17) of the SFDR.

Impact Fund: Funds managed with the intention of generating positive, measurable social and environmental impacts, where impact has priority over financial performance.

Engagement: The process of communicating with representatives of a company as a shareholder with the aim of improving their behaviour and policies.

Voting (Equities only): Also known as Proxy Voting, it is a form of voting whereby the fund manager casts votes on behalf of their mutual fund shareholders on a variety of issues, that may include the election of board members, merger or acquisition approvals, or approving a stock compensation plan.

Glossary

ESG Characteristics: Environmental, social, and governance (ESG) information is a critical part of corporate and investment strategy and embedding material sustainability considerations into corporate and investment decisions is integral to long-term success from both financial and sustainability perspectives.

MSCI ESG Fund Rating: The Fund's ESG rating is designed to assess the resilience of the fund's aggregate holdings to long-term, financially relevant ESG risks and should facilitate the ability to rank or screen mutual funds and ETFs on a AAA to CCC ratings scale. This rating aims to provide fund level transparency and measures the ESG characteristics of the total portfolio. It is calculated as a direct mapping of MSCI ESG Quality Scores to letter rating categories. ESG Leaders are holdings with an ESG rating of AAA or AA (best in class), and ESG Laggards are holdings with an ESG rating of B or CCC.

MSCI ESG Quality Score: Calculated as the weighted average of the underlying holding's ESG scores, excluding any underlying holding where this information is not available. It is provided on a 0-10 scale, with 0 and 10 being the respective lowest and highest possible scores. MSCI scores underlying holdings according to their exposure to and management of key ESG issues, which are divided into three pillars: environmental, social and governance.

- **Environmental Pillar Score:** Provides an assessment of environmental factors including emissions, carbon footprint, fossil fuel usage and sustainable opportunities.
- **Social Pillar Score:** Relates to the operating environment of an underlying holding, including labour management, product liabilities, and health and safety.
- **Governance Pillar Score:** Provides an assessment of risk and management practices related to Corporate Governance and Corporate Behaviour.

ESG % Coverage: The percentage of the fund and comparator where MSCI ESG Research data is available.

Financed Emissions: Measure the greenhouse gas emissions associated with the investment. This figure represents the absolute overall exposure of the fund and is dependent on AUM, hence an increase in the AUM will cause the finance emissions to increase and vice versa. The fund AUM is used to calculate the Comparator's financed emissions which will also increase or decrease depending on the AUM size.

Scope 1: Covers direct emissions from owned or controlled sources.

Scope 2: Covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company.

Scope 3: Includes all other indirect emissions that occur in a company's value chain.

Relative Carbon Footprint: The measure of the impact of activities on the amount of greenhouse gases produced, such as burning fossil fuels. Measured as Scope 1 + 2 Emissions per JPY 1M invested.

Wtd Avg (Weighted Average) Carbon Intensity: The underlying holdings exposure to carbon intensive holdings, calculated as the weighted average of the constituent's intensity metrics: Scope 1 + 2 emissions per USD 1M revenue for corporates and total country carbon emissions per USD 1M GDP for government bonds.

% Carbon Coverage (excluding cash): This represents the % weighting of the Fund/Benchmark for which carbon data is available.

References to Regulations

SFDR: Part of the EU's Sustainable Finance Action Plan, the Sustainable Finance Disclosure Regulation aims to promote transparency on sustainability by ensuring that participants in the financial services sector provide consistent information to clients in relation to the sustainability of the products and services they provide.

Important ESG Information

The above information is for illustrative purposes only. Providing this information is not indicative of how or whether ESG factors will be integrated into a fund. Unless otherwise stated in the legal offering documents, the ESG information provided in this document does not change a fund's investment objective or policy or constrain the fund's investable universe. The rating may vary from one rating agency to another. The rating may change over time and is not a guarantee of future performance of the fund.

Certain information © 2024 MSCI ESG Research LLC. Reproduced by permission, no further distribution. This report contains certain information (the "Information") sourced from MSCI ESG Research LLC, or its affiliates or information providers (the "ESG Parties"). The information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices. Although they obtain information from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness, of any data herein and expressly disclaim all express or implied warranties, including those of merchantability and fitness for a particular purpose. None of the MSCI information is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

The data as represented has in the main been sourced from MSCI and ISS for respective categories. It should be noted that the ratings represented here may not be representative of the rating applied by the investment team as they use their own proprietary rating methodologies to assess the ESG credentials of each issuer. In addition, there are certain asset classes where data coverage per provider is not uniform and does not cover every single issuer. To the extent that MSCI/ISS does not cover a security in the fund, this does not represent that the security is not covered and rated by the investment team. Any holding held by the fund is rated by each investment team using their proprietary rating methodology sourcing information from external sources and unique insight that the teams have into the individual issuers.
